

# SUBJECT INDEX

- AbioCor total artificial heart
  - implantation of, 139-151
- Acorn cardiac support device, 84-89, 107-110
- Akinesia, postinfarction
  - surgical anterior ventricular restoration of, 66-75
- Anastomosis, end-to-end
  - for coarctation of the aorta, 2-10
- Anterior ventricular restoration, surgical
  - for ischemic cardiomyopathy, 66-75
- Aorta, coarctation of
  - end-to-end anastomosis for, 2-10
- Aortic annular enlargement
  - for mechanical aortic valve replacement
    - anterior (Konno procedure), 188-194
    - posterior, 181-187
- Aortic insufficiency
  - resection of discrete subaortic membranes in, 172-175
- Aortic root replacement
  - reoperative, of homograft aortic root, 206-217
- Aortic valve replacement, mechanical
  - anterior aortic annular enlargement (Konno procedure)
    - for, 188-194
  - posterior aortic annular enlargement for, 181-187
- Aortoventriculoplasty
  - with pulmonary autograft (Ross/Konno procedure), 195-205
- Arterial switch operation
  - for transposition of great arteries, 49-63
- Artificial hearts
  - AbioCor, 139-151
  - Jarvik 2000, 120-125
  - see also* Ventricular assist devices
- Assist devices, *see* Devices
- Atrial septal defects
  - partial atrioventricular canal defects, correction of, 29-37
- Atrioventricular canal defects
  - complete, correction of, 38-48
  - partial, correction of, 29-37
- Cardiac support device, Acorn, 84-89, 107-110
- Cardiac surgery
  - contemporary, for heart failure, 65-110
  - for congenital conditions, 1-64
  - for left ventricular outflow tract obstruction, 171-227
  - implantation of new assist devices for failing hearts, 111-170
- Cardiomyopathy
  - dilated, Myosplint implant procedure for, 90-102
  - nonischemic dilated, pacopexy for, 76-83, 103-106
- Coarctation of aorta
  - end-to-end anastomosis for, 2-10
- Congenital cardiac surgery, 1-64
  - coarctation of aorta, end-to-end anastomosis for, 2-10
  - complete atrioventricular canal, correction of, 38-48
  - introduction, 1
  - partial atrioventricular canal defects, correction of, 29-37
  - tetralogy of Fallot, total correction of, 22-28
- transposition of the great arteries, 49-63
- ventricular septal defect, closure of, 11-21
- Devices
  - for the failing heart, implantation of, 111-170
    - AbioCor total artificial heart, 139-151
    - HeartSaver left ventricular assist device, 152-157
    - Jarvik 2000 heart, 120-125
    - MicroMed DeBakey VAD, 126-138
    - preface, 111
    - TandemHeart percutaneous left ventricular assist device, 112-119
    - Thoratec ventricular assist device, 158-170
- Dilated cardiomyopathy
  - Myosplint implant procedure for, 90-102
  - pacopexy for nonischemic, 76-83, 103-106
- Discrete subaortic stenosis, *see* Subaortic stenosis
- Discrete supraaortic stenosis, *see* Stenosis, aortic
- End-to-end anastomosis
  - for coarctation of the aorta, 2-10
- Failing heart, *see* Heart failure
- Failure, heart, *see* Heart failure
- Fallot, tetralogy of
  - total correction of, 22-28
- Great arteries
  - transposition of, 49-63
- Heart failure
  - contemporary surgery for, 65-110
    - Acorn procedure, 84-89
    - anterior ventricular restoration for ischemic cardiomyopathy, 66-75
    - internal left ventricular reconstruction, 103-106
    - introduction, 65
    - Myosplint implant procedure, 90-102
    - pacopexy, for nonischemic dilated cardiomyopathy, 76-83
    - surgical implantation of Acorn, heart support device, 107-110
  - new assist devices for, 111-170
    - AbioCor total artificial heart, 139-151
    - HeartSaver left ventricular assist device, 152-157
    - Jarvik 2000 heart, 120-125
    - MicroMed DeBakey VAD, 126-138
    - preface, 111
    - TandemHeart percutaneous left ventricular assist device, 112-119
    - Thoratec ventricular assist device, 158-170
- HeartSaver left ventricular assist device
  - implantation of, 152-157
- Homograft aortic root
  - reoperative replacement of, 206-217

- Hypertrophy, left ventricular  
  resection of discrete subaortic membranes in, 172-175
- Insufficiency, aortic  
  resection of discrete subaortic membranes for, 172-175
- Intact ventricular septum  
  transposition of great arteries with, 49-63
- Ischemic cardiomyopathy  
  surgical anterior ventricular restoration for, 66-75
- Jarvik 2000 Heart  
  implantation of, 120-125
- Konno procedure  
  for mechanical aortic valve replacement, 188-194  
  *see also* Ross/Konno procedure
- Left ventricular assist devices, *see* Ventricular assist devices
- Left ventricular hypertrophy  
  resection of discrete subaortic membranes in, 172-175
- Left ventricular outflow tract obstruction, 171-227  
  complicating correction of atrioventricular canal, 39-48  
  discrete supralvalvar aortic stenosis, 218-227  
  mechanical aortic valve replacement for  
    Konno procedure (anterior aortic annular enlargement)  
      for, 188-194  
    posterior aortic annular enlargement for, 181-187  
  preface, 171  
  reoperative replacement of homograft aortic root, 206-217  
  resection of discrete subaortic membranes, 172-175  
  Ross-Konno procedure for, 195-205
- Left ventricular reconstruction  
  internal, using pacopexy, 103-106
- Mechanical aortic valve replacement  
  anterior aortic annular enlargement (Konno procedure)  
    for, 188-194  
  posterior aortic annular enlargement for, 181-187
- MicroMed DeBakey ventricular assist device  
  implantation of, 126-138
- Myosplint implant procedure, 90-102
- Ostium primum defects  
  correction of partial atrioventricular canal defects, 29-37
- Pacopexy  
  for nonischemic dilated cardiomyopathy, 76-83  
  internal left ventricular reconstruction with, 103-106
- Partial atrioventricular canal defects  
  correction of, 29-37
- Percutaneous transseptal ventricular assist  
  implantation of TandemHeart device via, 112-119
- Pulmonary autograft  
  in Ross/Konno procedure, 195-205
- Reoperative replacement  
  of homograft aortic root, 206-217
- Restoration procedures  
  for nonischemic dilated cardiomyopathy, 76-83
- Root, aortic  
  reoperative replacement of homograft, 206-217
- Ross/Konno procedure  
  for left ventricular outflow tract obstruction, 195-205  
  *see also* Konno procedure
- Septal anterior ventricular exclusion, *see* Pacopexy
- Stenosis  
  subaortic, resection of discrete subaortic membranes, 172-175  
  supralvalvar aortic, surgical options for discrete, 218-227
- Subaortic stenosis  
  resection of discrete subaortic membranes, 172-175
- Supralvalvar aortic stenosis  
  surgical options for discrete, 218-227
- Surgical anterior ventricular restoration  
  for ischemic cardiomyopathy, 66-75
- TandemHeart percutaneous left ventricular assist device  
  implantation of, 112-119
- Tetralogy of Fallot  
  total correction of, 22-28
- Thoratec ventricular assist device  
  implantation of, 158-170
- Transposition of great arteries  
  surgery for, 49-63
- Ventricular assist devices  
  implantation of  
    AbioCor total artificial heart, 139-151  
    HeartSaver, 152-158  
    Jarvik 2000 heart, 120-125  
    MicroMed DeBakey, 126-138  
    TandemHeart, 112-119  
    Thoratec, 158-170
- Ventricular septal defect  
  closure of, 11-21  
    left ventricular approach, 20  
    right atrial approach, 12-15  
    right ventricular approach, 19  
    transaortic approach, 18  
    transpulmonary artery approach, 16-17
- Ventricular septum  
  defects of, *see* Ventricular septal defect  
  intact, transposition of great arteries with, 49-63
- Williams syndrome  
  discrete supralvalvar aortic stenosis in, 218-227
